
Call Us Today

A fresh start is just a phone call away.

Anyone concerned with the safety or health of a person who is abusing substances is encouraged to call Huntsville Memorial Hospital for more information.

If you are:

- An individual struggling with obtaining and maintaining sobriety from drugs and/or alcohol
- An employer who suspects employee substance abuse in someone who is lacking productivity, excessively absent or constantly injured
- A family member or caregiver who is impacted by a loved one's ongoing abuse of substances
- A member of the legal or judicial system
- A member of the healthcare community
- · Any other concerned individual

Contact us at 936*435*2200 to learn how to refer an individual to the C.A.R.E. program.

The latest numbers from national surveys show that more than eight percent of the population use illicit drugs. The C.A.R.E. outpatient treatment program will help provide people with the care and support they need to triumph over their addictions.

C.A.R.E.

Chemical Addiction Recovery & Education at Huntsville Memorial Hospital

C.A.R.E.

At Huntsville Memorial Hospital, we've developed a service to help conquer the challenges of alcohol and drug abuse. C.A.R.E., an intensive outpatient treatment program, is focused on helping adults to achieve and maintain a sober lifestyle.

The Chemical Addiction Recovery and Education (C.A.R.E.) program at Huntsville Memorial Hospital was developed to serve residents of Walker County and the surrounding counties.

The C.A.R.E. Program is a voluntary treatment program designed for adults, 18 and over, who may be experiencing difficulties resulting from abuse of alcohol or other chemical substances.

Licensed by Texas Department of State Health Services, the intensive, outpatient program is staffed with highly qualified and licensed individuals.

Substances Treated

- Alcohol
- Marijuana
- Opiates/Pain relievers
- Sedatives/Sleep Aids
- Amphetamines
- Barbiturates
- Cocaine
- PCP

A Fresh Start

C.A.R.E. stands for Chemical Addiction Recovery & Education, but it really stands for a fresh start.

According to the Substance Abuse and Mental Health Services Administration, nearly 15 percent of people over age 18 are at risk for substance abuse and dependence problems.

There are many common signs that a person is struggling with substance abuse or addiction:

- Loss of health or severe injury
- Loss of job
- Estrangement of friends
- · Family discord or turmoil
- Financial instability or fragility
- Discord between spiritual values
- · Legal Issues such as DUI, DWI, or possession

About The Program

The C.A.R.E. program is part of Outpatient Counseling Services at Huntsville Memorial Hospital. Treatment is conducted under the direction of a physician and licensed substance abuse counselor. We provide comprehensive services, including:

- Comprehensive Assessment
- Group and Individual Therapy
- Medication Management
- Case Management
- Education
- Family Education/Support

tion/Support

Program Hours

The C.A.R.E. group sessions run from 5:30 to 8:30 p.m. on Monday, Wednesday and Thursday evenings.

Program participants attend these sessions while living at home and maintaining work schedules. Other treatments are available by appointment.

Payment Options

Most insurances providers are accepted. Private pay arrangements can also be made.
